

OSBA Policy Services

A superior service just got better

OSBA has been a leader in policy services for decades, ensuring your district is compliant with legal and legislative requirements while providing your district the flexibility needed to serve your students.

Well-written policies are a necessity for every school district. The right policies bring prudent change to your district and communicate the board's standards to the school community.

As your association, we understand the challenges and time constraints you face and have created essential policy services with your board's perspective in mind.

We are excited to announce a new software that will provide your district with an excellent online policy development and hosting platform. Let OSBA help set your district up for success by developing, updating and sharing policies that communicate and promote effective governance and efficient administration.

Benefits of OSBA Policy Services

- Experienced OSBA policy consultants offer superior service, expertise and guidance for all your policy needs, supported by OSBA's expert staff and consultants.
- Competitive rates with individualized customer service.
- A quarterly e-newsletter provides articles featuring new and revised laws, rules and regulations that include policy implications and complimentary webinars.

Get started today

Call our Policy Services team today at (614) 540-4000 or (800) 589-OSBA to learn how the new online platform with BoardDocs is an excellent fit for your district's policy needs.

"I have been so happy since switching to OSBA's online policy hosting through BoardDocs. OSBA took our policy manual and did all of the work. Now, when a policy is adopted, I forward it, and OSBA adds it to our online policy manual. It is that simple! It's incredibly easy to search and print board policies. This tool works exactly like it should, and I am very glad we switched."

Mary Davis, administrative assistant to the superintendent, Bexley City

"Working with OSBA to create our new district policy was incredibly easy and very rewarding from start to finish. Our policy consultant was extremely knowledgeable and worked us through every element in our policy and offered expert advisement tailored to the needs of our administration and board. The monumental task of creating new policy was made painless because of the consultant's accessibility and other valuable OSBA representatives during and after the process."

Kevin Spicher, superintendent, Howland Local (Trumbull)

Which service is right for your district?

Overview of OSBA Policy Services

Manual development

Various levels of service are available to suit your district's unique policy needs. OSBA consultants will work with you to determine what service will be most beneficial and assist your district in compiling a comprehensive and useable policy manual. Not sure which service is right for you? Follow the steps above and contact your OSBA policy consultant for more information.

Staying up to date

Policy review and evaluation is a continual process. OSBA works to keep clients up to date on important policy changes and provides resources for communicating and maintaining your policy manual in an online format. All these services also provide districts with access to OSBA policy consultants for policy questions and needs.

Policy Development Quarterly (PDQ)

This quarterly e-newsletter provides articles featuring new and revised laws, and rules and regulations that include policy implications. Updated sample policies and regulations are also available to subscribers. OSBA policy consultants host complimentary webinars to review the articles and sample policies with each PDQ issue. The webinar is designed to provide further consultation and answer subscribers' questions.

Online policy services

Hosting and updating of an online policy website allows your policy manual to be more easily accessible to administrators, staff and the community. The manual is searchable and contains links to other related policies, as well as legal references. OSBA assists in updating your website based on policies revised by the board.
