SOLUTIONS FOR CHILDREN, FAMILIES
& COMMUNITIES

Welcome to OhioGuidestone

OhioGuidestone is built on a solid foundation of experience and expertise — rooted in faith with a legacy of serving children and families for 152 years. Our approach is comprehensive, integrated and aimed at creating long-term solutions. Through our passionate people who are specifically committed to our values, and through our customizable programs designed to build upon one another, we work to address every aspect of a person's needs. We help children, families and communities become stronger. Today, OhioGuidestone serves more than 32,000 individuals in 22 counties throughout Ohio. We provide home and community-based behavioral health treatment services, parenting and family skill-building programs, Workforce 360°, foster care services, residential treatment and group homes, in addition to affiliated programs and resources

Our Programs and Services

Because we believe that every individual is unique, we've created a continuum of flexible, customized programs developed to build upon one another so they address every aspect of a person's needs. But no matter how individualized our programs are, one thing about them remains the same: they're always focused on making a positive, lasting, measurable difference in the lives and communities we serve.

Home and Community Based Behavioral Health Treatment Services

We offer a variety of individual, group and family counseling options for many behavioral health needs including counseling, mentoring and other supports needed to address mental health challenges or family problems. Services are available at our outpatient counseling offices, in many local schools or at other sites within the community. We are proud to offer many of our critical behavioral health treatment services in the homes of our clients. Providing services in the clients homes helps us limit barriers to service and provide more effective, positive and successful treatment.

Parenting and Family Skill Building Programs

Our family skill building programs are designed to help parents learn how to be a successful parent and how to provide a stable and consistent environment for their family. Through a variety of programs we teach parenting strategies, life skills, home management and other skills that help families function more effectively.

Workforce 360°

Workforce 360°, OhioGuidestone's workforce development program, collaborates with other successful training programs in Cuyahoga, Lake and Geauga Counties to teach life skills and help students finish their education and become confident not only in a professional setting, but to empower them in their personal lives. We partner with many employers to assist our graduates with employment after they complete their program.

Foster Care Services

Through our treatment and medically fragile foster care programs, we offer placement for children who need a loving, safe home. Our foster caregivers receive extensive training and support and are licensed by the Ohio Department of Job and Family Services.

Residential Treatment and Group Homes

We have several therapeutic group homes, as well as residential treatment services, located at Berea Children's Home, our residential treatment campus, for children who can't live safely or productively in their family homes. These programs include room and board and a full complement of mental health and educational services.

Affiliated Programs and Resources

We are proud to manage and/or operate several affiliate services which provide supplemental services, designed to compliment the programs and services offered by OhioGuidestone. These services include Family Life Child Care Centers, five high-quality child care centers throughout Cuyahoga County; Personal and Family Counseling Services; and Stepstone Academy, our charter school located in Cleveland's Central neighborhood.
