

Health Pack by AbundaBox™

AbundaBox™ is a platform created to revolutionize access to healthcare resources, including 24/7 access to clinical support and monthly HealthPacks tailored to individual needs, all at no cost to eligible participants.

Personalized Monthly HealthPacks

Every HealthPack contains customized solutions in technology, nutrition, education, healthcare, and community. Monthly boxes are full of resources driving awareness and access, including medicines, vitamins, flu tests, free food cards, healthcare devices, mental health aids, and more. **Contents are covered by over 70 different government programs.**

AbundaBox Cares Program

Participants can contact us 24/7 through our 'We Care' program for just-in-time testing and treatment as needed. We offer molecular-grade tests with telehealth proctoring. In the case of a confirmed positive result, we assist in finding treatment via our extensive network of in-person and virtual partners. **We use the country's strongest call center, used also by the CDC and FEMA.**
