

# BRIEF CASE

## THE OHIO SCHOOL BOARDS ASSOCIATION

Serving the public school leadership team

### Report: Charter school closings harm students, waste tax dollars

Since becoming legal in 1997, 29% of Ohio's charter schools have closed, including 17 schools last year in Columbus, *The Columbus Dispatch* reported. These closings interrupt students' education, leave families scrambling to enroll their children in another school and cost taxpayers millions of dollars in wasted funds. The paper also reported that since 2000, the state found that 110 charter schools misspent a total of \$22.6 million in public funds. In some of those cases, charter school officials were convicted of criminal charges in addition to being held liable for the misspent money.

## PUPIL TRANSPORTATION ADMINISTRATOR TRAINING PROGRAM #1 *Rules and laws governing Ohio pupil transportation*

Wednesday, March 5 • 10 a.m. to 2 p.m. • \$90 • OSBA office, Columbus

Ohio schools transport more than 900,000 students daily, using approximately 13,000 school buses. These school buses, which have been repeatedly proven to be the safest form of pupil transportation — nearly 30 times safer than the typical passenger vehicle — travel nearly 1 million miles daily to accomplish this monumental task.

Because of this and other factors, pupil transportation is one of the most regulated services nationwide, as well as in Ohio. Recently, changes were enacted in a number of the administrative rules, as well as in the Ohio Revised Code through House Bill 59. This workshop will explore the various federal and state regulations that transportation administrators need to be familiar with to ensure that their student transportation is safe, dependable and compliant with both laws and best practices.

Join OSBA school transportation services staff for a fast-paced, in-depth discussion of current laws and best practices used throughout the state.

Ohio School Boards Association

# Board Leadership Institute

Professional development designed by board members for board members

May 2-3, 2014 • Hilton Columbus/Polaris

# Organizational leadership for tomorrow's schools

You are accountable for overseeing a multimillion dollar organization that serves your community's most important asset — its children. It's an enormous responsibility, one that calls for extraordinary skills.

Learning what it takes to be an effective school board member has been estimated to take at least two years of board service. The challenge is not only for new board members, it's ongoing.

Whether you're in your first term or your 10th, the ever-changing world of public education governance is one in which continuing education and professional development are critical. So, where does a board member go for that ongoing training? Answer — OSBA's Board Leadership Institute!

As a member of your school district's governing body, you are called on at every meeting to make important decisions. Some decisions are easy; others complicated. That's why board member development is so important.

The 13th annual Board Leadership Institute promises the training you need to hone your skills and take them to the next level. The institute focuses on what you need to know, because it's the only leadership development event in Ohio designed exclusively for school board members.

The cost to attend BLI is \$240. Twenty points will be awarded for attending the institute, which may be applied toward receiving OSBA's Award of Achievement and Master Board Member Award.

## **The Board Leadership Institute enables board members to:**

### **Earn Award of Achievement points**

# Learning doesn't stop when you're elected, it begins

Almost all board members agree that they could use more training in tackling school district problems. When asked how, board members say they want training that is highly task-oriented, takes a short period of time, is done in small groups and is led by outstanding instructors.

To meet these requests, OSBA is working with board members across the state to develop the annual Board Leadership Institute. The two-day workshop, planned for May 2–3, is designed specifically for board members and will focus on numerous topics. Participants will have the opportunity to attend the opening general session, multiple breakout sessions and closing luncheon, as well as network with each other throughout the two days.

## Reflections from 2013 attendees:

"Attending BLI has been an awesome experience. Every session I attended was highly organized and filled with meaningful, practical information."

"The networking is as important as the subjects presented."

"The information was extremely valuable. The selection of breakout sessions was in line with the hot-button issues of the time."

"BLI is an excellent program. Breakout sessions on current topics school boards face are always needed to assist us in leading our school districts."

## LEGISLATIVE REPORT

by Jay Smith, lobbyist

### Calamity days

Severe winter weather has already taken its toll on Ohio this school year, with many districts having used up their five allotted calamity days. Currently, districts need to make up any days exceeding the allotted number, possibly by extending the school year. In response, Reps. **Tony**

**Burkley** (R-Payne) and **Brian Hill** (R-Zanesville) have introduced legislation to increase the number of calamity days for the 2013-2014 school year.

The legislation, House Bill (HB) 416, seeks to add four calamity days to the amount already allocated to schools. In addition, the legislation was amended in

committee to allow schools, at the discretion of the local board, to add up to 30 minutes to the school day to make up the lost time. A school will be considered to have made up a day for each additional five hours its students in grades one through six are in session, and for each 5.5 hours students in

## Ohio School Boards Association 2014 Capital Conference

Nov. 9-12, 2014      Greater Columbus Convention Center

## Call for conference breakout session proposals!

The hallmark of the OSBA Capital Conference is the educational programming. Breakout sessions feature practical advice that attendees can take back to their districts. The conference offers sessions on innovative programs, cost-saving strategies, key legislation and other timely and important topics.

OSBA is now accepting proposals for breakout sessions for the 2014 Capital Conference. Proposals will be selected based on strong interest, relevance, creativity, innovation, proven success and practical, how-to information.

The deadline for proposals is 5 p.m. on March 17. We encourage online nominations, but paper submissions will be accepted. Download a nomination form at the website below.

Visit [www.ohioschoolboards.org/nominate-a-session](http://www.ohioschoolboards.org/nominate-a-session) to submit your proposal today!

grades seven through 12 are in session. The legislation, as passed by the House committee, also contains an emergency clause, which will allow the bill to go into effect immediately upon the governor's signature.

The bill seems to be on a fast track since being introduced on Jan. 28 and reported out of the House Education Committee on Jan. 29. It is expected to be voted out of the House chamber on Feb. 12 when the legislature has its next scheduled session. Following action in the House, the bill will go to the Senate for further consideration.

### **Member feedback needed on CC+ recommendations**

HB 59, the biennial budget bill, required the Ohio Board of Regents chancellor to make recommendations on a new structure for handling postsecondary options for high school students. The new program — College Credit Plus (CC+) — would replace all current postsecondary options.

The chancellor met the deadline for issuing his recommendations, releasing his report in December. Following is a short list of changes included in the recommended CC+

proposal:

- All districts and public institutions of higher education (IHEs) must participate in CC+.
- Resident school districts would retain 17% of the per-pupil state funding amount for CC+ students.
- Funding for CC+ would be prorated based on credits earned.
- Public school students attending public colleges may not be charged any amount for tuition.
- Local agreements with IHEs would be permitted (between floor and ceiling funding parameters).

OSBA, in coordination with the

# **OSBA Student Achievement Fair**

**Tuesday, Nov. 11, 2014 • Greater Columbus Convention Center**

The OSBA Capital Conference Student Achievement Fair highlights outstanding initiatives from school districts across the state. OSBA is seeking fresh, innovative programs or practices your district is willing to share with thousands of Ohio school district representatives. One hundred programs and practices will be selected based on creativity and impact on student achievement. The fair will be held from

11:30 a.m. to 3:30 p.m. on Tuesday, Nov. 11 during the OSBA Capital Conference.

Five performing groups from across Ohio will be selected to entertain attendees during the Student Achievement Fair. To be considered, you must submit an audio or video recording of the performing group. DVDs or CDs can be mailed to OSBA or a video or MP3 can be submitted with the online application.

OSBA is now accepting nominations for district programs and performing groups. While multiple programs may be submitted for consideration, no more than two per district will be selected, so districts should prioritize their submissions.

Nominate your district at [www.ohioschoolboards.org/saf-nominations](http://www.ohioschoolboards.org/saf-nominations). The nomination deadline is June 27.

## PUBLIC SCHOOLS WORK!

compiled by Bryan Bullock, assistant editor

### Assignment choices engage central Ohio students in learning

Central Ohio students are being given the flexibility to choose class assignments that best fit their learning style and interests.

Students in **Hilliard City** teacher **Bridget Ebenhack's** science classes can choose from a "learning menu" of assignments that include options such as worksheets, research projects, video projects and lab work.

"Each menu attempts to incorporate activities from the multiple intelligences that students

possess — allowing them to learn in a way that they are comfortable and confident with and, hopefully, enjoy more," Ebenhack told a local newspaper.

She introduced the concept in her classes last school year and administrators say more teachers at Hilliard Darby High School are doing the same.

Teachers in **Bexley City**, **Pickerington Local (Fairfield)**, **South-Western City** and **Whitehall City** have reportedly

adopted similar learning menus.

To encourage homework completion, Whitehall City's Kae Avenue Elementary School gives students a variety of assignments to select from that target math, spelling, reading, science or social studies skills.

"Anytime the kids have a choice, it gets them more interested in their own learning," said Whitehall City teacher **Amanda Cote**.

*Legislative Report, continued from page 6*

Buckeye Association of School Administrators and the Ohio Association of School Business Officials, is seeking members' feedback on the CC+ recommendations. Your input will have a bearing on OSBA's position if legislation is proposed. Also keep in mind that legislation would be needed to implement the chancellor's recommendations for the CC+ program. The full report can be found on the Ohio Board of Regents website, [www.ohiohighered.org](http://www.ohiohighered.org).

The OSBA legislative division will continue to keep you informed as the governor and legislature respond to the chancellor's report.
