Governance and consulting solutions for every district

The OSBA Division of Board and Management Services serves the entire district leadership team to improve school board governance. OSBA provides a wide range of governance consulting services to support your district’s unique needs. OSBA consultants, who are former school board members, work closely with the board and administrative team to ensure all goals, interests and needs are met.

When to use governance and consulting services

- When the notion of governance is taking second place to the “small stuff.”
- When there are questions about the board’s roles and responsibilities.
- When there is new leadership or changes to the administrative team.
- When evaluation or hiring processes need improvement.
- When everything is going well — build upon a solid foundation and plan ahead.
- When the board wants to better engage its community and needs ideas or assistance.
- When board retreats and workshops need objective facilitation.

OSBA superior governance and consulting services include:

- strategic planning
- customized workshops
- customized surveys, including community engagement tools
- board relations and roles training
- team building and customer service for the board or groups of staff
- superintendent and treasurer searches with unique capabilities and resources
- superintendent-treasurer and board goal setting and evaluation training
- Achiever leadership assessment for recruitment, retention and professional development of staff and for board development of leadership team
