

Distance Learning Evaluation Survey

Audience: Instructional Staff

Dear teachers and staff:

What a team effort! When we left in March, we had no idea we would not return to classrooms this school year. Together, we quickly developed a plan for distance learning and – because of you – we were able to meet the needs of our students. I am in awe of the hard work, creativity and flexibility you have demonstrated over the last few weeks. Please know you are appreciated and valued by [District].

Like educators across the nation, I am hopeful and optimistic that you and your students will be able to safely return to classrooms in the fall. It is important, however, for us to evaluate our distance learning services to make improvements, in case it is necessary for school buildings to close again in the future. I especially want to know how we can better support you and your colleagues.

Please take time to complete the survey below. Thank you for your feedback and for being part of our school family.

Sincerely,
