Bear chased out of bear-friendly Alaska high school

A bear recently had to be chased away after it wandered into a high school in Anchorage, Alaska.

Police said the small black bear entered Bartlett High School — home of the Golden Bears — through a door left open for construction workers. School was out for the summer, so no students were present, but local media reported some staff members had to be evacuated.

Police responded and searched the school for the bear. They followed clues, such as knocked-over trash cans containing food. Officers safely scared the bear out of the school by making loud noises. In addition to having a bear as a mascot, the school also has a large bruin painted on the side of the building.

The OSBA Legal Assistance Fund (LAF) recently participated in an Ohio Supreme Court case between The Ohio State University (Ohio State) and ESPN. The Legal Assistance Fund provides legal or financial assistance in matters of statewide importance to local school districts.

LAF joined the Ohio Legal Rights Service, Community Legal Aid Services and Northeast Ohio Legal Services, and submitted an amici curiae brief arguing that Ohio State was prohibited from disclosing the records requested by ESPN pursuant to Ohio’s Public Records Act and the federal Family Education Rights and Privacy Act (FERPA).

ESPN had requested the records in 2011 as part of its reporting on an NCAA investigation of rules violations by the Ohio State football program.

In the case, State ex rel. ESPN Inc. v. Ohio State Univ., Slip Opinion No. 2012-Ohio-2690, ESPN filed a writ of mandamus to compel Ohio State to provide “all documents and emails, letters and memos to and from Tressel, Gordon Gee, Doug Archie and/or Gene Smith with the key word Sarniak since March 15, 2007.”

Ohio State responded and claimed that FERPA prevented the school from releasing records related to Sarniak and denied the request of records related to the pending NCAA investigation.

ESPN then requested “any report, email or other correspondence between the NCAA and Doug Archie or any other Ohio State athletic department official related to any violation of NCAA rules involving the football program, since Jan. 1, 2005.”

Ohio State also denied that request, claiming it was too broad under Ohio’s public records laws.

ESPN argued that Ohio State violated Ohio Revised Code Section (RC) 149.43 (B)(2) and (3) by denying requests for documents that listed the names of individuals who were barred from access to game tickets, as well as documents related to the “ongoing investigation.” ESPN also argued that FERPA penalized educational institutions only by withholding federal funding if those institutions permitted the release of certain records without parental consent.

Ohio State contended that the records that were not provided to ESPN were protected under FERPA, the attorney-client privilege and the work-product privilege.

Ultimately, the Supreme Court of Ohio denied the writ of mandamus in part because Ohio State “… established that FERPA and the attorney-client privilege prohibited the disclosure of the majority of the requested records,” at ¶41. However, the court granted the writ in part after finding that Ohio State committed per se violations of the Public Records Act by denying ESPN the opportunity to amend its request after determining the request was too broad, and by stating that Ohio State had no obligation to provide documents that were part of an ongoing investigation.

The court agreed with Ohio State and ruled that the university was “prohibited by FERPA from systematically releasing education records without parental consent.” Also, the court noted that records that could not be released under state or federal law were exempt from release under RC 149.43 (A) (1)(v).

ESPN contended that FERPA did not apply to any documents

Legal Briefs, continued from page 5

related to Sarniak or prior NCAA investigations because those records were not considered education records. However, the court determined that the records were education records and FERPA did apply because the records contained information that was directly related to students and contained information that identified student athletes. For FERPA to apply, as stated by the court, the education records need only “contain information directly related to a student and be maintained by an educational agency or institution or a person acting for the institution.”

The court found that Ohio State acted properly when it redacted the identifying information that concerned student athletes, but determined that ESPN was entitled to redacted copies of the few records that were completely withheld based on FERPA. Also, the court ruled that the attorney-client privilege applied to the requested records that were from or between Ohio State officials and attorneys that provided legal advice, interpretation and investigatory fact-finding.

As a result, the court declined to award attorney fees to ESPN because Ohio State complied with RC 149.43, for the most part, when the school responded to ESPN’s records requests, and most of ESPN’s claims were without merit.

If you have any questions regarding this case, or the OSBA Legal Assistance Fund, please contact the OSBA legal services division at (614) 540-4000 or (800) 589-OSBA.

"Legal Briefs" articles are designed to provide authoritative general information, sometimes with commentary. It should not be relied upon as legal advice. If legal advice is required, the services of an attorney should be obtained.

Legislature in recess, but Statehouse action continues

Even though the General Assembly completed work on mid-biennial review legislation and has officially recessed for summer break, activity at the statehouse continues. Below are updates on legislation passed in the final days before the summer recess and the school-funding hearings currently going on at the Statehouse.

School-funding hearings

The Ohio House of Representatives Extended Subcommittee on Primary and Secondary Education has begun hearings on school funding to educate its members and prepare for the governor’s new school-funding formula to be introduced next year. The committee is made up of the following legislators:
- Rep. Ron Amstutz (R-Wooster), chairman
- Rep. Bill Hayes (R-Harrison Township)
- Rep. Matt Lundy (D-Elyria)
- Rep. Ron Maag (R-Lebanon)
- Rep. Jeff McClain (R-Upper Sandusky)
- Rep. Debbie Phillips (D-Athens)
- Rep. Gerald Stebelton (R-Lancaster)
- Rep. Vernon Sykes (D-Akron)

The first hearing with public testimony was held on June 28 and focused on two specific topics: equity and funding following the student. The Ohio School Boards Association, Buckeye Association of School Administrators and Ohio Association of School Business Officials presented joint testimony, and Dr. Howard Fleeter testified on behalf of the Education Tax Policy Institute. Copies of both testimonies are available at www.ohioschoolboards.org/legislative.

Information about the committee, including testimony presented at hearings and the schedule for future hearings, is available on the committee’s website at http://studentlearning.first.ohiohouse.gov. OSBA encourages school board members, superintendents and treasurers to follow these hearings and offer input while this process continues through summer and fall.

Out-of-state travel — HB 437

House Bill (HB) 437, sponsored by Rep. Kristina Roegner (R-Hudson), increases the maximum distance that school board-owned motor vehicles may travel on out-of-state trips. Specifically, the bill raises the maximum round-trip distance that a motor vehicle owned or operated by a school district board of education may transport students on out-of-state trips from 240 miles to 1,000 miles.

The bill was passed by both chambers and signed by the governor. It will become effective on Sept. 28.

Use of public funds — HB 326

HB 326, cosponsored by McClain and Rep. Brian Hill (R-Zanesville), prohibits a person from using public funds for...
specifically, the final bill prohibits any person from knowingly conducting any transaction of public funds to the benefit of any campaign committee, political action committee, legislative campaign fund, political party, campaign fund, political committee, separate segregated fund or candidate.

Violation of the prohibition is a first-degree misdemeanor.

However, the prohibition does not prohibit using a person’s own time to speak for or against a candidate, recall, referendum, levy or bond issue unless prohibited by another Ohio Revised Code section.

In working with the state auditor’s office, OSBA shared information about how school district levy campaigns and levy committees function. It is important to note that the final bill focuses on the transaction of public funds and in no way limits a person’s ability to speak for or against a levy. In addition, the bill does not prohibit a school district from spending public money to provide information to the public.

HB 326 was passed by both chambers and signed by the governor. It becomes effective Sept. 5.

For the latest legislative updates, please contact the OSBA legislative services division at (800) 589-6722.
