StudentWatch
A Product of PublicSchoolWORKS

Student Accident Management

There's nothing more important than student safety. PublicSchoolWORKS' StudentWatch Suite helps districts stay ahead of student accident concerns and provide a safe school environment.

Student Accident Management
Streamline your behavior management program and improve communication between schools and families.

"StudentWatch is a tool you can't go without," said Andy Trujillo. "If you want to be transparent and ensure safety of everyone, you want to make sure you have the knowledge and a pulse on what's happening at the school and district levels. StudentWatch has done that for us." Director of Student Services, Strongville City Schools

- **Consistent policies across your district**
  Implement discipline policies district-wide, so classroom management is consistent

- **Identify key problem areas and support prevention**
  Easily analyze behavioral data and process referrals—intervene before minor disruptions become real problems.

- **Eliminate manual processes**
  Referrals, communication and documentation are all administered through one reliable system
