

Amended Substitute House Bill 33

Senate Finance Committee – Highlights of Sub Bill

Highlights (Statewide Offices / Taxation)

- Provides for significant tax relief to Ohioans by phasing in a two-year income tax reduction. The number of personal income tax brackets would be reduced to just two, preserving the House's consolidation of the middle bracket while also eliminating the top bracket and lowering the state's top marginal rate. (In Tax Year 2016 there were nine brackets) This will leave Ohio with just two rates of 2.75% and 3.5%. Additionally, to promote economic activity, the plan phases in, again over two years, a 25% reduction in Commercial Activity Tax (CAT) rates and minimums
- Creates a new mechanism, to replace the Income Tax Reduction Fund, for Ohioans to benefit from leftover state tax dollars. This new Expanded Sales Tax Holiday would replace the existing back-to-school sales tax holiday only in years when there is more than \$50M in excess GRF. The current back to school Sales Tax Holiday in August will otherwise proceed annually. Allowing Ohioans to benefit from the state's current surplus, the amendment places \$1.0B into the Sales Tax Holiday fund, which will create the first Expanded Sales Tax Holiday on August 1, 2024, lasting for at least two weeks. During the holiday, it is intended that as many tangible goods under \$500, with some exemptions would be exempt from all state and local sales taxes. This allows all Ohioans, not just those paying income taxes to benefit from state surpluses. Counties, local governments, the LGF and PLF will be reimbursed for any lost revenue
- Increases the fund available for the All Ohio Future Fund to \$1.0B for site preparation and continued economic investment throughout Ohio
- To make sure we make smart decisions with resources, the amendment creates a \$1B One-Time Strategic Community Investments Fund to be used in FY 25 once all Ohioans, local officials, community leaders and others have time to make thoughtful requests for these dollars
- Creates the Welcome Home Ohio (WHO) program, allowing the Development to offer grants and tax credits for land banks to purchase and rehabilitate owner-occupied houses. Appropriates \$100M and authorizes tax credits totaling \$25M per FY
- Beginning in 2025, suspends the indexing of the income tax brackets to inflation and instead requires the Tax Commissioner to use those funds to lower the minimum due in the first taxable bracket until it is eliminated
- Beginning in 2028, modifies the State Appropriation Limitation (SAL) to include all appropriations that are supported by GRF tax receipts and reduces the growth factor to 3%. Makes other changes to tighten the SAL and allow it to limit the growth of state spending
- Uses interest on the BSF to update the withholding tables for Ohio's personal income tax collections. Requires that the first \$650M of BSF investment earnings that occur over the next decade be used to gradually align personal income tax withholding rates with the actual tax rates which have been and continue to be reduced. After the \$650M amount is met, the interest will be credited to the GRF

Amended Substitute House Bill 33

Senate Finance Committee – Highlights of Sub Bill

Highlights (Primary and Secondary Education)

- Realigns the duties, function, and structure of the Ohio Department of Education into a cabinet-level agency called the Ohio Department of Education and Workforce (DEW), overseen by a director whose appointment is subject to Senate approval
- Makes the EdChoice Expansion Scholarship universally eligible to Ohio students; students with family income below 450% FPL will be eligible for a full scholarship; scholarships for students in families with income above 450% will be means-tested based on family income; sets a minimum scholarship of 10% for any student
- While retaining the base cost calculation and FY 22 inputs on educator salary data, makes adjustments to components within the formula by which the state provides foundation aid to public schools and districts
- Restores funding to roughly \$174M over the biennium for literacy improvement, including teacher training in effective literacy instruction and the purchase of curriculum and instructional materials
- Provides \$5M for schools to install dispensers and to provide feminine hygiene products
- Provides \$200M for career technical education. \$100M for facility upgrades and \$100M for equipment. These funds are appropriated from 5CV3 ARPA
- Provides an additional \$5M over the biennium to school districts who implement new College Credit Plus courses not previously available in any prior semester at a participating high school

Additional Provisions (Primary and Secondary Education)

- Defines the science of reading for purposes of student literacy instruction
- Requires a local professional development committee to count teacher professional development in literacy instruction toward their required training for licensure renewal
- Makes certain community schools that qualify for the Quality Community School & Independent STEM School Fund in 2022-23 eligible through the 2027-28 school year
- Requires schools and higher education institutions to accept cash for tickets to school events or activities, including for concessions at school events
- Restructures language concerning a transportation pilot program to permit two ESCs to coordinate transportation services for participating community and chartered nonpublic schools in those areas
- Requires DEW to contract with a vendor to study academically high-performing schools that serve a high concentration of vulnerable students and develop best practice guides for school districts

Amended Substitute House Bill 33

Senate Finance Committee – Highlights of Sub Bill

- Authorizes school districts to transport community school students using a van designed for nine passengers or less
- Authorizes a community school to transport its students in a van designed for nine passengers or less in certain circumstances, as is currently authorized for chartered nonpublic schools
- Requires DEW to operate a competency-based diploma pilot program in FY24-25 for students who are between 18-21 years old that is aligned to the standards of the 22+ Adult High School Program and provides \$2.5M over the biennium
- Modernizes the process for school districts and schools to utilize virtual education instead of “blizzard bags” when a school or district must temporarily close for prescribed reasons
- Adds a K-12 licensure band for computer science instruction and extends an exemption permitting individuals without a computer science license to teach computer science through the 24-25 school year
- Eliminates the state report card review committee
- Excludes a community school previously sponsored by DEW’s Office of School Sponsorship from an exemplary-rated community school sponsor’s academic rating for two years if the sponsor enters into a contract with that community school
- Extends the option for qualifying community schools to utilize a credit flex funding model for the 2023-24 and 2024-25 school years
- Makes corrective changes for certain capital appropriations to ensure funding for specified projects
- Makes permanent a pilot program for funding dropout prevention and recovery e-schools to receive state foundation funding and corrects language in the bill regarding the funding for such schools, including \$2M per FY in additional funding
- Permits a community school primarily serving students with disabilities to enter into a contract with a new sponsor if they meet specified criteria on their achievement and progress scores
- Makes a community school that replicates an instructional and operational model through an agreement with a college or university used by a community school in another state, and performs better academically than the district in which it is located, eligible for funds through the Quality Community School & Independent STEM School Fund
- Eliminates transfer to Teacher Licensure Fund
- Qualifies internet or computer based community schools for English learner funding
- Requires DEW to include a modified graduation rate measure on the state report card for online schools operated by school districts or community schools for students who are in twelfth grade and have earned at least fifteen high school credits
- Defines an industry-credential only program as offered by a DOPR community school and requires DEW to provide all DOPR students participating in such a program category I CTE funding as full-time students

Amended Substitute House Bill 33

Senate Finance Committee – Highlights of Sub Bill

- Qualifies a DOPR offering career-technical education for CTE funding in its first year of operation
