## Overview of Report Only Data

## Stakeholder Engagement

## Report Card Terminology

## Setting Rating Cut Scores

- (4)(a) ...establish the performance criteria, benchmarks, and rating system necessary to implement divisions (D) and (F) of this section...
- (b) In establishing the performance criteria, benchmarks, and rating system, the state board shall consult with stakeholder groups and advocates that represent parents, community members, students, business leaders, and educators from different school typology regions. The state board shall use data from prior school years and simulations to ensure that there is meaningful differentiation among districts and buildings across all performance ratings and that, except as permitted in division (D)(3)(f) of this section, more than half of all districts or buildings do not earn the same performance rating in any component or overall performance rating.

## Overall Rating Descriptions (ORC 3302.03)

## Rating

## Description

5 Stars Significantly exceeds state standards
4 and 4.5 Stars Exceeds state standards

3 and 3.5 Stars Meets state standards
2 and 2.5 Stars Needs support to meet state standards
1 and 1.5 Stars $\quad$ Needs significant support to meet state standards

## Administrative Rules under Review

## Project Review

# Ohio's School Report Cards: Upcoming System Reforms 

## Overview of Components

## Overview of Overall Rating

## Overview of Report Only Data

## Stakeholder Engagement

## Achievement Component Summary

Component Description: The Achievement Component measures students' academic achievement using each level of performance on Ohio's State Tests.

Cut Score Approach: Initial cut scores will be set using the prior system cut scores with the intent to revisit in two years to increase scores to a state standard of all students reaching or exceeding academic proficiency.

## Performance Index Calculation Example

| Achievement Level | Pct of Students |  | Points <br> for this Level |  | Points Received |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Advanced Plus | 0.2 | X | 1.3 | $=$ | 0.3 |
| Advanced | 2.9 | X | 1.2 | $=$ | 3.5 |
| Accelerated | 5.4 | X | 1.1 | $=$ | 5.9 |
| Proficient | 10.3 | X | 1.0 | $=$ | 10.3 |
| Basic | 16.5 | X | 0.6 | $=$ | 9.9 |
| Limited | 51.9 | X | 0.3 | $=$ | 15.6 |
| Untested | 12.8 | X | 0.0 | $=$ | 0.0 |
|  |  |  |  |  | 45.4 |

## Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are seven levels on the index and districts receive points for every student who takes a test. The higher the achievement level, the more points awarded in the district's index. This rewards schools and districts for improving the performance of all students, regardless of achievement level.

Department
of Education

## Detailed Changes to the Achievement Component

- Removes the "Indicators Met" as a rated measure
- Resets the maximum performance index score as the average of the highest $2 \%$ of PI scores achieved for that year. The max score is used as the denominator in the calculation. This max score is to be set this way for buildings and districts.

## Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are seven levels on the index and districts receive points for every student who takes a test. The higher the achievement level, the more points awarded in the district's index Thin m....nrde schools and districts for improving the performance of all studen ${ }^{\star}$, regardless of achievement leva:

Example: If in 2021 the max score is 105 . Score would be 45.4 out of possible 105 points $=43.2 \%$

## Setting Achievement Component Cut Scores

Calculation: The calculation includes performance on the following assessments at the school and district level: English language arts (grades 3-8), Math (grades 3-8), Science (grades 5, 8), English language arts I and II, Integrated Math I and II, Geometry, Algebra I, Biology, American History, American Government, and approved substitutes using performance on Advanced Placement or International Baccalaureate assessments.

Use of Max Score: The District Max Score is the average of the top $2 \%$ of district Performance Index Scores and the School Max Score is the average of the top 2\% of school Performance Index Scores. A percent of the max score is calculated by dividing the earned Performance Index Score by the max score. The percent of the max score is used for the distribution to assign ratings.

## Proposed Achievement Cut Scores Using 2019 SY Data

| Rating | Range | \# Districts | \% Districts | \# Schools | \% Schools |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $\mathbf{5}$ Star | Greater than or equal to 90\% <br> Max Scores | 116 | $19.1 \%$ | 542 | $17.1 \%$ |
| $\mathbf{4}$ Star | From 80\% to less than 90\% <br> Max Scores | 303 | $49.8 \%$ | 1069 | $33.8 \%$ |
| $\mathbf{3}$ Star | From 70\% to less than 80\% <br> Max Scores | 144 | $23.7 \%$ | 743 | $23.5 \%$ |
| $\mathbf{1}$ Star | From 50\% to less than 70\% <br> Max Scores | 45 | $7.4 \%$ | 609 | $19.3 \%$ |

Example of Achievement Ratings Using 2019 SY Data

Department of Education

## Rating Proposed Rating Descriptions for Achievement Component

5 Star

4 Star
Exceeds state standards in academic achievement

3 Star

2 Star

1 Star
Significantly exceeds state standards in academic achievement

Meets state standards in academic achievement

Needs support to meet state standards in academic achievement

Needs significant support to meet state standards in academic achievement

## Progress Component Summary

Component Description: Progress measures the academic performance of students compared to expected growth on Ohio's State Tests.

Cut Score Approach: Implement a second step for assigning ratings using an 'effect size'. Initial cut scores will be established using the 'growth index' and 'effect size' and setting symmetrical scale.

## Measuring Growth in Ohio

- SAS EVAAS has calculated value-added measures for Ohio since 2002.
- Value-added compares the...
- change in achievement of a group of students from one year to the next...
- to an expected amount of change...
- based on the students' prior achievement history.
- The methodology of calculating growth has not changed in Ohio.
- While the models have not changed, the method of categorizing growth has shifted over the years.

## Growth Index and Effect Size

## - Growth index

- Provides level of evidence that growth is statistically different from the expectation of growth
- Calculation: $\frac{\text { Growth measure }}{\text { Standard error }}$
- Thresholds based on statistical significance and commonly used values in the field of both education and statistics
- Growth effect size
- Effect size is a measure of magnitude that standardizes the growth measure. It can be used to indicate substantive or practical significance rather than statistical significance.
- Calculation:

Growth measure
Standard Deviation of Student Achivement

- Very similar to the growth measure currently used in reporting

## Two Steps to Categorization

- Step 1
- Use the index value to determine if there is statistical evidence that the observed growth was indeed above or below the growth expectation
- Use standard statistical thresholds for this determination. No different than the past
-Every measure starts at 3 stars, and then either stays at 3 , or moves to 2 or 4 at this step.
- Step 2
- Use the effect size to determine if the magnitude of growth was large enough for
- Schools and districts showing above expected growth to be considered 5 stars.
- Schools and districts showing below expected growth to be considered 1 star.

## School Growth 2019 - Effect Size and Growth Index

- Proposed classification method
- First, differentiate based on index or evidence
- Second, once evidence established, differentiate based on magnitude of growth

## Effect Size + Symmetrical Cut Scores

| Rating | District Range | \# Districts | \% Districts |
| :---: | :---: | :---: | :---: |
| 5 Star | Index at least 2 and Effect Size at least 0.1 | 106 | $17.41 \%$ |
| 4 Star | Index at least 2 and Effect Size less than 0.1 | 96 | $15.76 \%$ |
| 3 Star | Index greater than or equal to -2 but less than 2 | 200 | $32.84 \%$ |
| 2 Star | Index less than -2 and Effect Size at least -0.1 | 109 | $17.90 \%$ |
| 1 Star | Index less than -2 and Effect Size less than -0.1 | 98 | $16.09 \%$ |

| Rating | School Range | \# Schools | \% Schools |
| :---: | :---: | :---: | :---: |
| 5 Star | Index at least 2 and Effect Size at least 0.2 | 442 | $14.18 \%$ |
| 4 Star | Index at least 2 and Effect Size less than 0.2 | 544 | $17.46 \%$ |
| 3 Star | Index greater than or equal to -2 but less than 2 | 1212 | $38.90 \%$ |
| 2 Star | Index less than -2 and Effect Size at least -0.2 | 457 | $14.67 \%$ |
| 1 Star | Index less than -2 and Effect Size less than -0.2 | 461 | $14.79 \%$ |

## Effect Size + Symmetrical Cut Scores

1212

Department of Education

Significant evidence that the district [school] exceeded the student growth expectations by a larger magnitude
Significant evidence that the district [school] exceeded the student growth expectations
Evidence that the district [school] has met the student growth expectations
Significant evidence that the district [school] fell short of the student growth expectations
Significant evidence that the district [school] fell short of the student growth expectations by a larger magnitude

## Early Literacy Component Summary

Component Description: The Early Literacy Component measures reading improvement and proficiency for students in kindergarten through third grade.

Cut Score Approach: The Early Literacy Component has two additional measures that had not been included in the rating in prior systems and therefore did not have existing cut scores to duplicate for this initial cut score setting. The approach taken is to set the threshold of all students being proficient in the 3-Star range and distribute above and below that range. The proposal strongly supports evaluating the results in one year with intent to calibrate cut scores as appropriate.

## Prior System Component

## Measures in Early Literacy Component

Proficiency in Third Grade Reading: The percent of students who score proficient or higher on the reading segment of the third grade Ohio State Test in English language arts. The reading segment of the test is scored from 16-86 points; and a score of 50 is equivalent to scoring proficient.
Improving K - 3 Literacy: This measure will be like the currently implemented measure by the Department in calculating whether a district or building is making progress in improving literacy for struggling readers in grades kindergarten through third grade. Unlike previous versions of the calculation, there will not be a deduction for students who do not score proficient and were not already on reading improvement and monitoring plans (RIMP). If a district or building has fewer than $10 \%$ of students score below grade level (i.e., not on-track) on the diagnostic assessment in kindergarten, then this measure will not factor into the component rating for the district or school.
Promotion to Fourth Grade: The percent of students who are promoted to fourth grade and not subject to retention.

## Changes to Component Calculation

- Three measures now factor into the component rating
- RIMP "deduction" no longer implemented
- Schools and districts with less than $10 \%$ of students scoring not on-track in kindergarten will not have the Improving K-3 Literacy measure contribute to the component rating

## Early Literacy Component Calculation

| If a school or district has all three measures: |  |  |  | If a school or district does not have Improving K-3 Literacy: |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Performance on Measure | Weight | Weighted <br> Percentage |  | Performance on Measure | Weight | Weighted <br> Percentage |
| Proficiency in Third Grade Reading | 86\% | . 4 | 34.4 | Proficiency in Third Grade Reading | 86\% | . 6 | 51.6 |
| Promotion to Fourth Grade | 98\% | . 35 | 34.3 | Promotion to Fourth Grade | 98\% | . 4 | 39.2 |
| Improving K - 3 Literacy | 72\% | . 25 | 18 | Improving K - 3 <br> Literacy | N/A | 0\% |  |
| Combined Component Percentage $=$ |  |  | 86.7\% | Combined Component Percentage $=$ |  |  | 90.8\% |

## Proposed Cut Scores for Early Literacy Component

| Rating | Range | \# Districts | \% Districts | \# Schools | \% Schools |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 5 Star | Greater than or equal to 92\% | 38 | 6.3\% | 100 | 5.6\% |
| 4 Star | From 82\% to less than $92 \%$ | 102 | 16.8\% | 244 | 13.7\% |
| 3 Star | From 75\% to less than $82 \%$ | 181 | 29.8\% | 356 | 20.0\% |
| 2 Star | From 63\% to less than $75 \%$ | 234 | 38.5\% | 526 | 29.6\% |
| 1 Star | From 0\% to less than 63\% | 53 | 8.7\% | 552 | 31.0\% |

Proposed Cut Scores for Early Literacy

5 Star Significantly exceeds state standards in early literacy

4 Star Exceeds state standards in early literacy

3 Star Meets state standards in early literacy

2 Star

1 Star
Needs support to meet state standards in early literacy
Needs significant support to meet state standards in early literacy

## Gap Closing Component Summary

Component Description: The Gap Closing Component measures the reduction in educational gaps for student subgroups.

Cut Score Approach: While there are initial cut scores for the Gap Closing component from our prior accountability system, the measures and calculation methodology have changed so significantly that the prior system's cut scores are not an appropriate starting point. The proposed cut score range is purely a starting point to be evaluated in one year and adjusted to ensure cut scores used encourage high expectations and outcomes for all students.

## Prior System Component Calculation Example

Measured English language arts, Math, and Graduation Rate by student subgroup. Plus, measure of English learner proficiency improvement included.

Points earned for meeting annual goal, closing gap from prior year (making improvement), or meeting a growth target by student subgroup.

## New Gap Closing Component

The Gap Closing Component now includes additional measures of performance and a new methodology based on updates to Revised Code. The Gap Closing Component will reflect whether schools and districts meet the expected performance thresholds on:
— the gifted performance indicator;
— chronic absenteeism indicator;
— English learner proficiency improvement indicator;

- graduation goals for student subgroups;
- academic achievement in English language arts and math for student subgroups; and,
— academic progress (i.e., growth) in English language arts and math for student subgroups.

Proposed Component Point Assignments for Measures/Indicators

| Measure/Indicator | Details | Possible Points |
| :---: | :--- | :---: |
| Gifted Performance Indicator | Gifted Performance Index | 5 |
|  | Gifted Progress (Growth) | 5 |
|  | Gifted Identification and Services | 5 |
| Chronic Absenteeism Indicator | Meet annual goal or show improvement from prior year | 5 |
| English Learner Proficiency <br> Improvement Indicator | Meet annual goal or show improvement from prior year; English learners' <br> performance on OELPA | 5 |
| Graduation | Meet annual goal; at individual subgroup level | 5 |
| English Language Arts - <br> Achievement | Meet annual goal; at individual subgroup level | 10 |
| English Language Arts - Progress <br> (Growth) | Meet annual goal; at individual subgroup level | 10 |
| Mathematics - Achievement | Meet annual goal; at individual subgroup level | 10 |
| Mathematics - Progress (Growth) | Meet annual goal; at individual subgroup level | 10 |

Department of Education

## Data Notes for Gap Closing

The distribution of ratings, and therefore setting of cut scores, in the following Gap Closing simulations are very conservative estimates. The proposed cut score range is a starting point to be evaluated in one year.

The simulation data for the Gap Closing Component should take the following issues into consideration:

- New point structure for Gifted Performance Indicator (0,5, 10 or 15 points) while only 0 or 15 could be simulated
- Achievement targets can only receive full points; no longer accounting for partial points in the calculation
- Impact of the pandemic on performance levels and the use of ESSA academic goals that were set prior to the pandemic

## Example of Gifted Performance Indicator Impact

## Gap Closing Component Percentage Modeled Calculation

## Gap Closing Component Percentage Taking Additional Gifted Performance Index Points into Consideration

Rural district with 6 applicable subgroups has 40 points possible and earned 7 points for a total percentage of $17.5 \%$.

A large suburban district with 9 applicable subgroups has 70 points possible and earned 46 points for a total percentage of $65.7 \%$.

They met 2 of the 3 elements of the Gifted Performance Indicator which adds 10 points to the numerator, resulting in total percentage of $42.5 \%$.

They met 1 of the 3 elements of the Gifted Performance Indicator which adds 5 points to the numerator, resulting in a total percentage of $72.9 \%$.

## Proposed Cut Scores for Gap Closing Component

| Rating | Range | \# Districts | \% Districts | \# Schools | \% Schools |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 5 Star | Greater than or equal to 60\% | 64 | 10.5\% | 389 | 11.7\% |
| 4 Star | From 45\% to less than 60\% | 122 | 20.1\% | 377 | 11.4\% |
| 3 Star | From 30\% to less than $\mathbf{4 5 \%}$ | 222 | 36.5\% | 1,074 | 32.4\% |
| 2 Star | From 10\% to less than $\mathbf{3 0 \%}$ | 175 | 28.8\% | 927 | 27.9\% |
| 1 Star | Less than 10\% | 25 | 4.1\% | 551 | 16.6\% |

## Example of Ratings Distribution for Gap Closing Component

epartment
of Education

5 Star

4 Star

3 Star

2 Star

1 Star

Significantly exceeds state standards in closing educational gaps

Exceeds state standards in closing educational gaps
Meets state standards in closing educational gaps
Needs support to meet state standards in closing educational gaps
Needs significant support to meet state standards in closing educational gaps

## Gifted Performance Indicator Summary

- Updates Gifted Performance Index calculation to align with that in the Achievement Component
- Updates Gifted Progress to align to new rating system
- Updates Gifted Identification and Services:
-Points are calculated based on and adjust to enrollment
-Use of Representation Index
-Point matrix increased to possible 140 points

## Gifted Performance Indicator - 3302.02

(2) A performance indicator that reflects the level of identification and services provided to, and the performance of, students identified as gifted under Chapter 3324. of the Revised Code. The indicator shall be prescribed by rules adopted under Chapter 119. of the Revised Code by the state board. The state board shall consult with the gifted advisory council regarding all rules adopted under this section. Consultation with the state gifted advisory council shall occur not less than every three years.
The gifted performance indicator shall include:
(a) The performance of students on state assessments, as measured by a performance index score, disaggregated for students identified as gifted;
(b) Value-added growth measure under section $\underline{3302.021}$ of the Revised Code, disaggregated for students identified as gifted;
(c) The level of identification as measured by the percentage of students in each grade level identified as gifted and disaggregated by traditionally underrepresented and economically disadvantaged students;
(d) The level of services provided to students as measured by the percentage of students provided services in each grade level and disaggregated by traditionally underrepresented and economically disadvantaged students.

## Proposal: Gifted Performance Index

The Gifted Performance Index Score (Gifted PI Score) will use the same calculation rules as the regular Performance Index Score, including applicable tests as required in Ohio Revised Code. The index will be calculated using a new 'max score' approach like the regular Performance Index calculation.
The thresholds will increase over three years:
A. In 2021-2022, buildings must earn at least $95 \%$ of the possible Index points using the Gifted Building Level Max Score. In 2021-2022, districts must earn at least $95 \%$ of the possible Index points using the Gifted District Level Max Score.
B. In 2022-2023, buildings must earn at least $96.5 \%$ of the possible Index points using the Gifted Building Level Max Score. In 2022-2023, districts must earn at least $96.5 \%$ of the possible Index points using the Gifted District Level Max Score.
C. In 2023-2024, buildings must earn at least $97.5 \%$ of the possible Index points using the Gifted Building Level Max Score. In 2023-2024, districts must earn at least $97.5 \%$ of the possible Index points using the Gifted District Level Max Score.

## Proposal: Gifted Progress

Schools and districts will receive a "met" determination for this element if they earn a "3 Star," "4 Star" or "5 Star" rating on the value-added measure for students identified as gifted.

## Proposal: Gifted Identification and Services

Points are awarded on the Gifted Identification and Services point matrix based on the identification of, and service provided to, gifted students.

Districts have 16 separate percentages that could factor into their total points on the matrix. Schools have 8 separate percentages that could factor into their total points on the matrix.

The Gifted Identification and Services point matrix has a total of 140 points; however, each school and districts' total possible points is based on applicable categories based on total enrollment and that of specific student subgroups.

## Proposal: Identification and Service Point Matrix

- District level points use $\mathrm{K}-2,3-6,7-8$ and $9-12$ as the grade bands for Superior Cognitive and Specific Academic identification and services; and K - 12 as the grade band for Creativity, Visual or Performing Arts identification and services.
- School level points use the K - 12 grade band for both categories of identification and services.
- Use only those student subgroups that are underrepresented in the identified gifted population for the underrepresented minority category.
- Points for the underrepresented and economically disadvantaged categories will only be added to a school or districts' total possible points if they in fact have enrolled students in the identified subgroups.

## Representation Index

A representation index is the ratio between a given student group's representation in the gifted population and its representation in the overall student population. The representation index reflects the degree to which the student group is represented within the gifted population.

## A Representation Index of 1.00 indicates proportionality

## A Representation Index below .80 is considered inequitable

## Representation Index Example

## STEP 1

Of the 1,000 students enrolled, 200 students are identified as economically
disadvantaged which equals 20\% of the total enrollment.

RCS has identified 300 students as gifted. Of those 300 students, 25 students are identified as econ. disadvantaged which is $8 \%$ of the gifted students.

## Representation Index Example

## STEP 4

## 8\% representation amongst gifted students /

20\% representation amongst total enrollment =
0.4

# Identification: Economic Disadvantage 

| Rep Index | Points |
| :---: | :---: |
| 0.0 | $\mathbf{0}$ Points |
| 0.40 | $\mathbf{4}$ Points |
| 0.50 | $\mathbf{8}$ Points |
| 0.60 | $\mathbf{1 2}$ Points |
| 0.70 | $\mathbf{1 6 ~ P o i n t s ~}$ |
| $\mathbf{0 . 8 0}$ | $\mathbf{2 0 ~ P o i n t s}$ |

## Gifted Identification by Grade Band in Ohio

| Grade Band | 2019 Identification | 2021 Identification |
| :---: | :---: | :---: |
| K-2 | $6.9 \%$ | $3.5 \%$ |
| $\mathbf{3 - 6}$ | $17.6 \%$ | $17.3 \%$ |
| $\mathbf{7 - 8}$ | $19.9 \%$ | $19.3 \%$ |
| $\mathbf{9 - 1 2}$ | $\mathbf{2 0 . 5 \%}$ | $20.9 \%$ |

## 2021 Typology Average Identification State Average $=\mathbf{1 5 . 2 9 \%}$

## Gifted Service by Grade Band in Ohio

| Grade Bands | 2019 <br> Service | 2021 <br> Service |
| :---: | :---: | :---: |
| K-2 | $40.7 \%$ | $42.8 \%$ |
| $\mathbf{3 - 6}$ | $66.8 \%$ | $63.1 \%$ |
| $\mathbf{7 - 8}$ | $66.4 \%$ | $64.6 \%$ |
| $\mathbf{9 - 1 2}$ | $51.5 \%$ | $49.9 \%$ |

## 2021 Typology Average Service State Average = 57.22\%

## Proposal: Identification and Service Point Matrix

The threshold to meet the Gifted Identification and Services element of the Gifted Performance Indicator will phase in over three years. Schools and districts will receive a 'met' determination if they earn:

- 60\% of possible points for the 2021-2022 school year
- 70\% of possible points for the 2022-2023 school year
- 80\% of possible points for the 2023-2024 school year, and each school year thereafter

## Graduation Component Summary

Component Description: The Graduation Component measures the four-year adjusted cohort graduation rate and the five-year adjusted cohort graduation rate.

Cut Score Approach: The proposed cut scores initially used a similar range to the prior system's cut scores but were adjusted to account for the $50 \%$ rating rule. The intent is to revisit in two years to increase scores accordingly to raise expectations in the new system.

## Cohort Graduation Rates

## Graduation Calculation Example

## 4-Year Graduation Rate

The four-year graduation rate applies to students in the class of 2020 who graduated within four years. These are the students who entered ninth grade in the fall of 2016 and graduated by the summer of 2020 .

## 81.2\%

## 5-Year Graduation Rate

The five-year graduation rate applies to students in the class of 2019 who graduated within five years. These are the students who entered ninth grade in the fall of 2015 and graduated by the summer of 2020 .

The Graduation Component includes both the four-year graduation rate (weighted at 60\%) and the five-year graduation rate (weighted at 40\%). A weighted graduation rate has been calculated using the weights as directed in Ohio Revised Code 3302.03.

## 85.8\%

## Setting Graduation Component Cut Scores

Simulation Overview: The Graduation Component simulation uses data from the 2020 report card - which is the four-year graduation rate for the Class of 2019, and the five-year graduation rate for the Class of 2018. The Graduation Component includes both the four-year graduation rate (weighted at $60 \%$ ) and the five-year graduation rate (weighted at $40 \%$ ). A weighted graduation rate has been calculated using the weights as directed in Ohio Revised Code 3302.03.

## Proposed Cut Scores Using Weighted Graduation Rate

| Rating | Range | \# Districts | \% Districts | \# Schools | \% Schools |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 5 Star | Greater than or equal 96.5\% | 189 | 31.1\% | 220 | 28.1\% |
| 4 Star | From 93.5\% to less than 96.5\% | 193 | 31.8\% | 220 | 28.1\% |
| 3 Star | From 90\% to less than 93.5\% | 122 | 20.1\% | 136 | 17.3\% |
| 2 Star | From 84\% to less than $\mathbf{9 0 \%}$ | 72 | 11.9\% | 97 | 12.4\% |
| 1 Star | Less than 84\% | 31 | 5.1\% | 111 | 14.2\% |

## Example of Graduation Ratings Using Weighted Graduation Rate

Department of Education

Significantly exceeds state standards in supporting students to reach graduation requirements reach graduation requirements
Meets state standards in supporting students to reach graduation requirements
Needs support to meet state standards in supporting students to reach graduation requirements
Needs significant support to meet state standards in supporting students to reach graduation requirements

## College, Career, Workforce and Military Readiness

 Component Summary- Elements are equal in the calculation
- Expand list of elements that will be measured
- Report data during transition years (2021-2022, 2022-2023, and 2023-2024)
- Analyze data and submit proposed rules to JCARR prior to the Component being rated (2024-2025)

## Project Review

# Ohio's School Report Cards: Upcoming System Reforms 

## Overview of Components

## Overview of Overall Rating

## Overview of Report Only Data

## Stakeholder Engagement

## Overall Ratings

- Published in 2022-2023 school year.
- Used in 2021-2022 school year for sponsor evaluation and with federal school improvement identification.
- Includes half-star ratings; whereas components receive only full-star ratings.
- Components are assigned points and weighted to calculate the overall ratings for schools and districts.

## Required Weighted for Overall Ratings

The component weighting for the overall rating must adhere to the following criteria, until the College, Career, Workforce and Military Readiness Component is added to the overall rating calculation:

- Achievement and Progress must be equally weighted.
- Graduation, Early Literacy and Gap Closing must be equally weighted.
- Graduation, Early Literacy and Gap Closing must each individually be $1 / 2$ the weight given to Achievement.

## Weighting for all Five Components

| Achievement Component (28.601\%) | Progress Component (28.601\%) | Graduation <br> Component (14.266\%) | Gap Closing Component (14.266\%) |
| :---: | :---: | :---: | :---: |
|  |  | Early Literacy Component (14.266\%) |  |

[^0]
## Example of Combining the Components into Overall Rating

| Achievement Component (Points x Weight) |
| :---: |
| Progress Component (Points x Weight) |
| $\boldsymbol{+}$ |
| Gap Closing Component (Points x Weight) |
| $\boldsymbol{\Psi}$ |
| Early Literacy Component (Points x Weight) |
| $\boldsymbol{+}$ |
| Graduation Component (Points x Weight) |

## Overall Star Rating

(Sum of Component Points)
Early Literacy Component (Points x Weight)

Graduation Component (Points x Weight)

## Example of Assigning Points to Component

|  | Point Scale |  |  |
| :---: | :---: | :---: | :---: |
|  | Component Rating | Achievement Component Percentage | Points |
|  | 5 Star | from 95\% to less than o e equal to 10\%\% | 5 |
|  |  | from 92.55 toless than $95 \%$ | 4.75 |
| Achievement Component |  | from 918 tol less than $92.5 \%$ | 4.5 |
|  | 4 Star | from $87.5 \%$ \% toess than $00 \%$ | 4.25 |
|  |  | from $85 \%$ to less than 88.5\% | 3.75 |
| 88\% |  | from $82.5 \%$ t oless than 85\% | 3.5 <br> 3.25 |
|  | 3 Star | from $77.5 \%$ \% toess than 80\% | 3 |
|  |  | from $75 \%$ \% toless than 77.55 | 2.75 |
|  |  |  | 2.5 |
|  | 2 Star | trom $70 \%$ \% 0 less than $2.25 \%$ | $\frac{2.25}{2}$ |
|  |  | from $60 \%$ toless than $65 \%$ | 1.75 |
|  |  | from 55\% toless than $60 \%$ | 1.5 |
|  | 1 Star | from $50 \%$ \%oless than 5 5\% | 1.25 |
|  |  | from 30\% toless than $40 \%$ | 0.75 |
|  |  | from 15\% to esesthan 30\% | $\stackrel{0.5}{0.25}$ |

Achievement
Component Points
EX. 88\% = 4 Points

## Proposed Cut Scores (Points)

| Rating | Range |
| :---: | :---: |
| 5 Star | Greater than or equal to 4.125 Points |
| $41 / 2$ Star | From 3.625 to less than 4.125 Points |
| 4 Star | From 3.125 to less than 3.625 Points |
| $31 / 2$ Star | From 2.625 to less than 3.125 Points |
| 3 Star | From 2.125 to less than 2.625 Points |
| $21 / 2$ Star | From 1.625 to less than 2.125 Points |
| 2 Star | From 1.125 to less than 1.625 Points |
| $11 / 2$ Star | From 0.563 to less than 1.125 Points |
| 1 Star | Less than 0.563 Points |

## Estimated Distribution of Overall Ratings

Department of Education

## Distribution of Overall Ratings from 2019 SY

artment

## Overall Rating Descriptions (ORC 3302.03)

Rating Description
5 Stars Significantly exceeds state standards
4 and 4.5 Stars Exceeds state standards
3 and 3.5 Stars Meets state standards
2 and 2.5 Stars Needs support to meet state standards
1 and 1.5 Stars Needs significant support to meet state standards

## Project Review

## Overview of Components

## Overview of Overall Rating

## Overview of Report Only Data

## Stakeholder Engagement

## Report-Only Measures - Miscellaneous

## - Achievement Component

— Indicators Met (Ohio Revised Code 3302.03(D)(1)(....))

- Progress Component
— Overall Score ("All Students Measures") for district or building for most recent school year
- Composite of overall scores for previous three years
- Early Literacy Component
- Results of the kindergarten diagnostic assessment prescribed under division (D) of section 3301.079 of the Revised Code
- Percentage of students in a district or school who are promoted to fourth grade and not subject to retention AND completed all grade levels offered prior to the fourth grade in the district or school
- PBIS; whether the school or district has implemented a positive behavior intervention and supports framework
- FAFSA; the number and percentage of high school seniors in each year who completed the free application for federal student aid

## Report-Only Measures - Graduation

## - Graduation Component

- Percentage of students in the four- and five-year adjusted cohort graduation rates of a district or school who did not receive a high school diploma, disaggregated to the extent possible in the following categories:
- Students who are still enrolled and receiving general education services
- Students with an IEP who satisfied conditions for high school diploma but opted not to receive diploma and are still receiving education services
- Students with an IEP who have not yet satisfied conditions for high school diploma and who are still receiving education services
- Students who are no longer enrolled in any district or school
- Students who, upon enrollment in the district or school for the first time, had completed fewer units of high school instruction than other students in the four- and five-year adjusted cohort graduation rate
- Percentage of students included in the four- and five-year adjusted cohort graduation rates of the district or school who completed all of grades nine through twelve while enrolled in the district or school

## Student Opportunity Profiles

Student Opportunity Profiles will be reported starting with the 2022-2023 school year. To the extent possible, the data shall be disaggregated by grade level and student subgroup. The reporting will also include a state average, the average for similar school districts, and for schools, the average for the district in which the school is located.

- Average ratio of teachers of record to students in each grade level in a district or school
- Average ratio of school counselors to students in a district or school
- Average ratio of nurses to students in a district or school
- Average ratio of licensed librarians and library media specialists to students in a district or school
- Average ratio of social workers to students in a district or school
- Average ratio of mental health professionals to students in a district or school
- Average ratio of paraprofessionals to students in a district or school
- Percentage of teachers with fewer than three years of experience teaching in any school
- Percentage of principals with fewer than three years of experience as a principal in any school
- Percentage of teachers who are not teaching in the subject or field for which they are certified or licensed
- Percentage of kindergarten students who are enrolled in all-day kindergarten
- Percentage of students enrolled in a physical education or wellness course

## Student Opportunity Profiles

## Continued from prior slide.

- Percentage of students enrolled in a world language course
- Percentage of students in grades seven through twelve who are enrolled in a career technical education course
- Percentage of students participating in one or more cocurricular activities
- Percentage of students participating in advanced placement courses, international baccalaureate courses, honors courses, or courses offered through the college credit plus program
- Percentage of students identified as gifted in superior cognitive ability and specific academic ability
- Percentage of students participating in enrichment or support programs offered by a district or school outside of the normal school day
- Percentage of eligible students participating each school day in school breakfast programs offered by the district or school
- Percentage of students who are transported by a school bus each school day
- Ratio of portable technology devices that students may take home to the number of students
