

Ohio's School Report Cards: Upcoming System Reforms

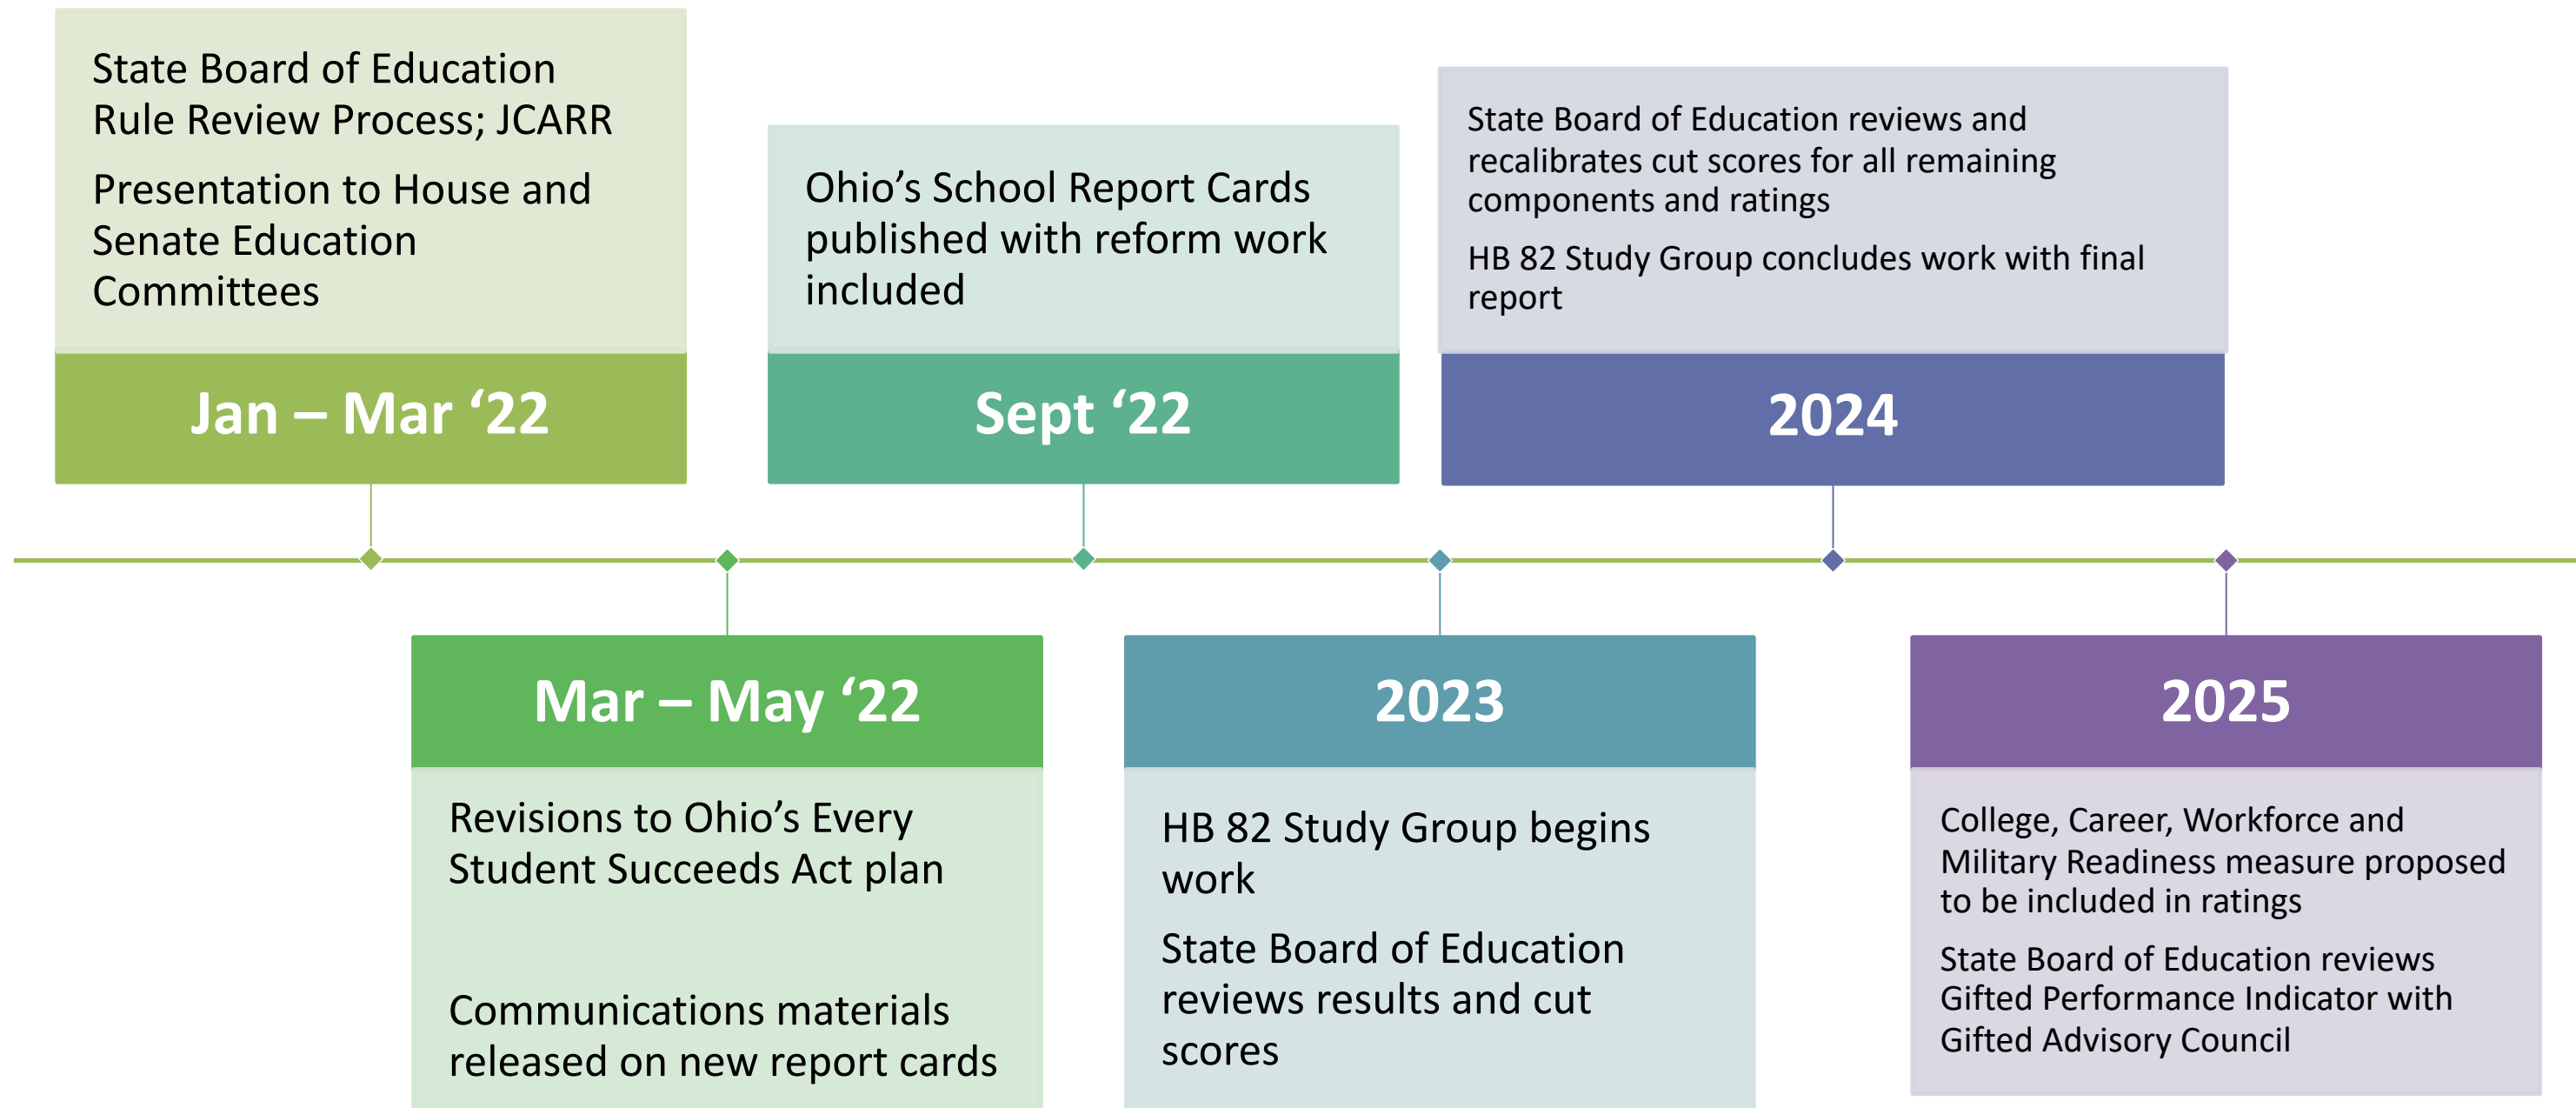

OSBA Townhall 3/21/22

Paul LaRue, State Board Member
Chair of Performance and Impact Committee

Shelby Robertson, Director
Office of Accountability

Report Card Reform Timeline

Ohio's School Report Cards

For the 2021-2022 school year, the report cards will include five rated components and various report-only data. Ratings for components will be on 1 through 5-star scale.

- **Achievement Component** – revised with ‘max score’ approach to PI; Indicator’s Met do not factor into rating
- **Progress Component** – revised with use of effect size; transition to multiple years of data
- **Gap Closing Component** – revised calculation; inclusion of chronic absenteeism indicator and Gifted Performance Indicator
- **Early Literacy Component** – revised calculation with three total measures
- **Graduation Component** – revision to style of calculation; weighting and measures remain same as prior system

Overall Star Ratings

- Published in 2022-2023 school year.
- Used in 2021-2022 school year for sponsor evaluation and with federal school improvement identification.
- Includes half-star ratings; whereas components receive only full-star ratings.
- Components are assigned points and weighted to calculate the overall ratings for schools and districts.
