Diversity, Equity and Inclusion
Empower an inclusive environment for all stakeholders

OUR EV ROADMAP: A PATH FOR A SEAMLESS TRANSITION

Our dealers and zero emissions trusted advisors are always available to help customers move forward with electrification. All it takes is three easy steps:

Step 1 - CONSULTING

Finding the best way forward

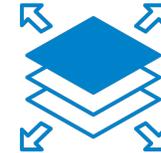

Our discovery workshops dive into your fleet's electrification needs and concerns, building a customized EV roadmap for success.

Step 2 - CHARGING

Laying the groundwork

We assess the placement of hardware and infrastructure, finding the best ways to support your vehicle charging and uptime.

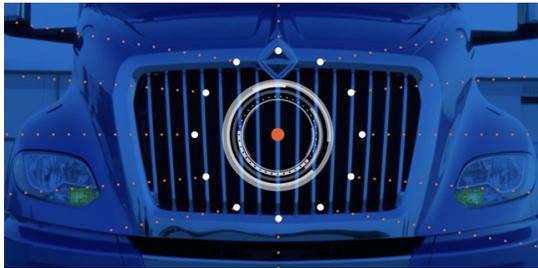

Step 3 - DEPLOYMENT

Bringing it all together

We ensure your charging locations, staff, and remote diagnostics are prepared for your electric fleet to hit the road.

OPERATING HIGHLIGHTS

OCC & International 360

OnCommand Connection - Advanced Remote Diagnostics

Features:

- Improved uptime and lowered total cost of ownership
- Monitors health and status of all-makes fleets
- Allows for seamless communication with the International dealer service network
- Enables subscriptions to 3rd party fleet management and compliance providers through factory-installed telematics device

International® 360 is our industry-leading service communications tool designed to accelerate the repair process, streamline communications within dealer service centers, and drive greater uptime

Features:

- Seamless communications with dealers and up-to-date repair status
- Complete VIN-based information: asset specs, complete parts catalog, remote health data, and more
- Online service request initiation and estimate approvals
- Complete service history, up-to-date campaign information, and engine calibration status - Integration with parts inventory systems shows which dealer locations have the parts you need on the shelf now.

Thank You
